# Accessories

At Record Direct we have a wide range of accessories to suit our swing and sliding door operators. These are our most popular ones.

### Record BDE-D Electronic Control Unit

The Record BDE-D is a convenient and user-friendly remote control unit for the intuitive control and programming of doors with Record operators. The LCD display provides data and information regarding the door status by means of symbols and plain text messages.

A slim-line BDE is also available for surface mounted finishes.

Suitable for the Record STA 20 and DFA 127 operators.

### Record BLS 60 Touchless Switch

The Record BLS 60 Switch is hygienic to use, as it automatically opens the door on the approach to the switch, eliminating any contact via hands.

It can be surface or flush mounted, quickly and easily and has an adjustable detection range from 15 to 80 cm.

Suitable for the Record DFA 127 operator.

### Record Battery Back Up

The Record Battery Back Up is both powerful and compact. It is ideal for single door openings to provide uninterrupted operation in the event of a power failure.

The battery pack can be attached to the swing door operator or elegantly integrated into the extended operator variant in the kit version.

Suitable for the Record DFA 127 operator

## Record VRR 20 Motorised Locking System

The Record VRR 20 built in motorised locking can be used on single, bi-oarting or telescopic doors to offer protection against burglars and opportunist thieves.

Motor-driven in both directions, the VRR is quick and easy to install and is ideal for quieter areas, as they is no noise when the lock is triggered.

Suitable for the Record STA 20 , TSA 20 and FTA 20 operators

## Record EPC 903 Easy Programmer

The Record EPC 903 Easy Programmer is designed specifically for engineers. Lightweight and durable, it enables users the same functionality as a Record BDE-D but without the robustness if a purpose built- handheld programmer.

It is excellent in large installations where multiple operators are set up, as it can be simply plugged into each operator for a quick, easy set-up and programming.

Suitable for the Record STA 20, TSA 20, FTA 20 and DFA 127 operators.
