

# Thornbury Leisure Centre

“We chose the Record FTA 20 as it is easy to fit, and extremely robust.

The ordering process from manufacturing through to delivery was smooth and the support from Record was excellent.

We are extremely happy with the outcome, as is our customer”

**Rob Strick**  
Director  
Avon Armour Ltd

## Brief

To replace the outdated internal folding door in the Leisure Centre foyer with a high-quality, folding door, to ensure unobstructed access into the reception area.

## Solution

Avon Armour installed a Record FTA 20 folding door in the narrow foyer, to match the existing exterior door and retain almost the full width of the space.

## Result

This space saving door provides a user-friendly, hassle-free entrance to all members, especially those carrying sports equipment, with disabilities or small children in tow.

The FTA 20 folding door is excellent for limited spaces, which exclude use of a sliding door.

Easy to retrofit, the FTA 20 saves time and installation costs

The FTA 20 is excellent in windy conditions providing resistance to extreme weather such as strong winds
